Notes:

*The training listed in the above table is mandatory for all new teams joining the 4th Cycle. Additional tailored training sessions will be organized, based on the teams' specific needs, and delivered by our international experts. Examples of these trainings include: a) Intellectual Property (IP) protection, b) Customer experience, c) Building your Minimum Viable Product (MVP), etc.

**Cyprus Seeds has collaborated with *egg enter grow go* for the past two years, during which five Cyprus Seeds teams completed the annual startup acceleration program. Depending on the readiness and progress of each project, Cyprus Seeds will recommend teams to apply to one of the upcoming *egg enter grow go* Cycles.

***Teams participating in networking events abroad will be selected based on criteria related to their progress and project readiness.

****The 3rd Innovation Showcase of Cyprus Seeds took place at the Reflect Festival in Limassol, where Cyprus Seeds projects were demonstrated to the 10,000 attendees of the festival. Additionally, selected teams pitched their projects to more than 13 investors from Cyprus, Greece, the US, Denmark, and the UK, who are part of Cyprus Seeds' international network.
